AirAce Helicopter Series

zoopa seventy

Size doesn't matter – zoopa seventy will be your favorite!

The time where space is needed to fly RC helicopters is definitely over! The zoopa seventy uses half a match box for landing and it impresses with excellent flight characteristics, a powerful motor and high sturdiness. Whether in the kids room or for office use – the zoopa seventy is the ultimate mini-gadget. With a size smaller than a thumb and a weight of 14 grams, it is one of the smallest remote controlled helicopters in the world.

This pocket size micro design makes it perfect for indoor use on very limited space.

Beginners will easily learn the realistic flight with the 3-Channel controller. Due to its newest Gyro technology, the zoopa is able to remain like fixed in the air, drifts will be corrected automatically. This makes flying to an absolute experience.

Channel selection before starting allows flying 3 helicopters in the air simultaneously.

How about a flying competition with friends?

For flying in the darkness or when a power failure happens, the zoopa seventy has a built-in super bright LED for ultimate flying experience. When do you start?
