## Mini Quadrocopter zoopa Q blu iz

The „zoopa Q“ mini quadrocopter is challenging the point of gravity!

The age of quadrocopters has just begun and now the “zoopa Q” sets a new standard. With its insane turns, enormous boost and unique agility, the “zoopa Q” guarantor for stunning flight-action. Anyone who wants to create his challenges and chases in an amazing way, has found his perfect partner through flip- and roll possibilities. Outstanding flight characteristics are underlined by the ultramodern design.

The very agile and zoopa-fast quadrocopter with a diameter of only 140 mm is made of a high-quality alu frame and synthetic composite material and meets the highest quality demands. It is made for the implicit In- and Outdoor use and needs only few space to fly due to its compact size. The extremely simple steering enables a fast and easy control for beginners. The 4 + 1 Channel RC System offers a realistic flight while the quadrocopter can be easily flown in every direction. The controller offers 3 modes. Through this function, beginners, advanced and even professionals fully meet their requirements.

Wild stumbling and crashing quadrocopters are history now thanks to the 2.0 ForceBack Gyro sensor, which corrects rotation abnormalities in a secure way. As a result, flying becomes an outright experience for young and old.

By use of the 2.4 GHz technology several quadrocopters can be used on smallest space, which enables breathtaking challenges with friends. So why not organizing a small pilots challenge?

To avoid to stop flying in darkness or in case of an electricity cut, the “zoopa Q” quadrocopter offers 4 LEDs at the front and 2 LEDs at the back.

## Key Features

- » 2.4 GHz RC System
- » 4 bright white front LEDs, 2 taillight LEDs in red for easy direction detection – to be turned on/off at the controller
- » 3 modes: beginner, advanced and professional with salto funktion into all directions
- » Alloy frame and shatterproof ABS
- » Extra powerful 300 mAh LiPo Battery
- » State of the art German design – product and gift box
- » Part of the well known zoopa family – the most successful RC helicopter series in Germany

## Content of the Box [RTF]

- » zoopa Q blu iz
- » 2,4 GHz controller BC2450
- » LiPo battery 3.7 V 300 mAh
- » USB cable with overcharging protection
- » 2x spare blades 1 x L, 1 x R
- » Manual

## Technical Data

Size:	140 x 140 mm
Gyro system:	2.0 ForceBack integrated
Rotors:	2 x L, 2 x R, 4 x 55 mm
Battery:	300 mAh LiPo
Frequency:	2.4 GHz
Controller range:	about 50 m
Charging time:	about 30 min.
Flight duration:	about 6 – 8 min.
Controller:	4 + 1-Channel 2,4 GHz Controller Mode 2 with Trimm
